

Ethan Buckner

Congratulations to Ethan Buckner who will be attending **North Carolina A&T University** in the fall of 2026 to pursue a degree in Mechanical Engineering. Ethan is a recipient of a four-year scholarship from the RW Sorrell Scholarship Fund in the amount of \$5,000 annually. He is a graduate of Cheltenham High School where he was an honor roll student earning a 3.4 GPA, a member of the Superintendent's Student Advisory Council and Student of the Month in November of 2025. Other extracurricular activities he participated in while attending Cheltenham High School included being a member of the Boys Freshman and Junior Varsity Basketball Teams.

Ethan's references spoke enthusiastically about his character, his level of maturity, leadership ability, civic responsibility and dedication to making a positive impact in his school, church and community. He has also been described as a model citizen and future leader. He is a proud member of Jack and Jill of America, Inc Montgomery County, PA Chapter, an organization that promotes leadership development, service initiatives, educational development, cultural awareness and civic and social responsibility. This organization along with his church activities have played a major role in developing his leadership skills and commitment to service. During his tenure as a member of Jack and Jill of America, Ethan held several positions of leadership including Treasurer and Chairperson of Fundraising Committee (helping to guide financial decisions made by the group), and as Community Service Chair where he planned and led volunteer activities that supported initiatives such as food insecurity, and the health of mothers and babies through the March of Dimes.

Ethan presents as a mature, well-articulated individual who is excited about participating in the democratic process and voting for the first time. He views participating in the democratic process as a way to use his voice to support policies that uplift others.

Ethan understands that resources, leadership and advocacy can have a big impact on communities and he wants to be a part of the process of making resources available to communities in need. By combining service with civic engagement, he hopes to continue to build stronger, more inclusive communities. ■
